

12 FAH-8 Appendix III

FREQUENTLY USED FUNCTION CODES FOR THE RESIDENTIAL SECURITY PROGRAM

(TL:RSP-01; 11-01-2001)

a. The following function codes (FC) are those most often used to account for funds allotted for the purchase, installation, maintenance and repair of equipment for the Residential Security Program. Funds expended under these function codes are all non-ICASS (International Cooperative Administrative Support Services).

(1) **FC 5841—Perimeter and Internal Security:** Residential security upgrades including expenses for grilles, alarms, locks, lights, substantial doors, etc. Funds also cover the cost of shipping and installation of equipment as well as the salary of a residential security coordinator, if applicable.

(2) **FC 5843—Maintenance & Repair (M&R):** Costs of installed residential security equipment, M&R expenses including contracts, labor, parts and supplies.

(3) **FC 9906—Residential Window Treatments:** Costs for the purchase and installation of shatter resistant window film (SRWF) for residences.

b. The following function codes are those most often used to account for funds allotted for guard services under the Residential Security Program (RSP).

(1) **FC 5821—Residential Security Guards:** Costs for all residential security guards, including those at the ambassador's residence (EMR), principal officer's residence (POR), and Marine security guard residence (MSGR).

(2) **FC 5823—Mobile Patrol Security Guard Services:** Costs for roving security guard services for chancery, residences and other mission buildings and facilities.
